LEARNING OBJECTIVES

The comprehensive, five session (100-hour) seminar series will focus on the principles of Straight-Wire Non-Extraction Orthodontics, which is our philosophy. The program is presented exactly as you would approach treating the patient; from diagnosis and treatment planning to case finishing mechanics. Upon completion of the entire program, participants will have the knowledge to:

- Produce Standard of Care Patient Documentation
- Confidently Select Cases for Treatment
- Interpret Cases Using a Predictable Diagnostic System
- Present an Accurate Treatment Plan and Treatment Sequence
- Evaluate and Troubleshoot Case Progression
- Implement the Most Current Treatment Options
- Deliver the Correct Mechanics in the Appropriate Sequence
- Finish Cases to a Level of Excellence

Session 1	Session 2	Session 3	Session 4	Session 5
Patient Documentation Required for Meeting the Standard of Care	Archwire Sequence	Archwire Sequence	Indications for Interceptive-Phase I Mixed Dentition Treatment	Case Finishing Techniques

Clinical Bonding Procedures & Materials	➤ SS Ligature Tie	Lip Bumper	Myofunctional Therapy	
Practice Management & Administration for Incorporating Orthodontics	➤ Kobayashi Tie	Nitanium Palatal Expander™ (NPE)	Myobrace® Treatment	
Your Success Plan – Implementation	Multi-Distalizing Arch™ Appliance	Bonded Lower Lingual Retainer		

INCLUDED WITH THE COURSE

- 2 Years, 10 sessions, 200 CE Credits. Tuition includes 5 sessions this year and free monitoring of all sessions next year too! Continue to earn CE credit while you review the course your second year.
- 300 page course manual written by Dr Robert G. Gerety
- Free access to our Online Comprehensive Course to use as a review and a study aid in between classroom sessions. Review the same presentation ONLINE that we present in the classroom. Also enjoy a free one year Basic Membership to the Gerety Orthodontic Seminars website including access to Big Bob's Case Library and to The Forum.
- Do you have a conflict with one of the course dates? We are committed to the success of each of our students and will provide access to our online course to make-up missed sessions.
- During each session we devote class time to review student cases. Present your cases and we will help you with case selection, diagnosis, treatment planning and sequencing, and problem solving. This is a great opportunity to learn from your classmates' cases too!
- One-on-one help from our instructors. We are available to help you both in and out of the classroom. We are dedicated to answering your questions and are always just a phone call or an email away.
- Interest free payment plan, the option to make 5 payments and still receive our discounted early registration pricing!
- **Save \$500 by registering early!** Take advantage of this special offer by registering before **September 2** when this special price expires and returns to **\$5,995**.

THE INSTRUCTORS

Kay C. Gerety

Kay is the Director of Education at Gerety Orthodontic Seminars and is the lead instructor of our classroom courses and our online program. As a CDA, Kay worked alongside Dr Gerety in their dental practice, and for 30 years she assisted him in presenting their Comprehensive Orthodontic program. She developed and taught her own clinical program for dental assistants and has lectured extensively on office managerial topics including Orthodontic Integration and Profitability, Practice Management and Marketing, and Effective Staff Utilization.

Dr. Debra Ettle-Resnick

Deb earned her Dental Assisting degree before graduating from the University of Minnesota with her DDS degree. In 1992, she started five private practices in northwestern MN and began incorporating Straight-Wire Orthodontics into her practices in 1994. Deb is a current member of Omicron Kappa Upsilon dental honor society. In 2004, she was awarded her Diplomat status by the AOS, and she has served on their Board of Examiners. She is a multiple recipient of the Robert G. Gerety Case of the Year Award, which is presented as recognition for the highest level of clinical achievement in orthodontics.

Dr. Michael Auld

Dr. Auld graduated Magna Cum Laude from Oklahoma Baptist University in 2005, and is a 2009 graduate of the University of Oklahoma College of Dentistry where he graduated with distinction. Michael joined his uncle's dental practice in McAlester, OK where he practices family dentistry. Michael is a member of the ADA and the Oklahoma Dental Association and participates annually in the OKMOM free dental clinic. Michael took our Comprehensive Ortho course in Tulsa in 2011 and immediately began incorporating the Gerety Straight Wire techniques into his practice. Michael has returned to our class each year and has been an invaluable mentor to our students. We were thrilled to have him join our team as an Associate Instructor in 2017.

Dr. Damon Huffman

Dr. Huffman graduated from the University of Texas Dental School at Houston in 1994. The following year he took Dr. Robert Gerety's GP Comprehensive Orthodontic course. This allowed him to incorporate orthodontics into his busy family practice. In 20 years Dr. Huffman has completed over 700 orthodontic cases following Dr. Gerety's Straight Wire techniques. He has been an active member of the American Orthodontic Society and the Academy of General Dentistry. Dr. Huffman received his Fellowship in the AOS in 2011, his Fellowship in the AGD in 2013, and his Diplomate from the AOS in 2015. In 2014 he was named Forum Master of the Gerety Orthodontic Seminars website and we welcomed him to our classroom team in 2016.

Dr. Joseph Schmidbauer

Dr. Schmidbauer graduated from Ohio State University, College of Dentistry in 1979, and has maintained a private practice in Oregon, Ohio for 31 years. Dr. Schmidbauer has completed over 2,000 cases since incorporating orthodontics into his practice in 1989. He is a member of the American Dental Association, Ohio Dental Association, International Association of Orthodontics, and the American Orthodontic Society. In 2003 Joe was awarded Diplomate status from the AOS. Joe is currently teaching the Robert G. Gerety Comprehensive Orthodontic Program in the classroom with Kay Gerety and the classroom team.

GERETY ORTHODONTIC SEMINARS

Join us ONLINE too! Our ONLINE ortho course has proven to be an invaluable asset to our classroom students to use as a study aid at home in between sessions and even to make up missed sessions. We will provide limited access to our ONLINE course for all early registration students. It is the best of both worlds! Enjoy the classroom interaction experience and then review the same PowerPoint and lecture material, and even the project videos that we present in the classroom, ONLINE from the comfort of your home or office.

You're in Good Company! Over 10,000 dentists have attended Gerety Seminars over the past 40 years—you probably know several of the attendees. Call us at 918-606-2809 and ask for a Gerety student in your area. Feel free to ask questions, and speak with them candidly about their experience. The Geretys have taught much more than orthodontics, they have taught a lifelong commitment to dental excellence and it shows in their students' treatment results.

More Direct Flights to Dallas! Traveling into Dallas is even more convenient with more direct flights. Travel non-stop to Dallas from most major airports across the nation.

EDUCATION

Gerety Orthodontic Seminars

Nationally Approved PACE Program Provider FAGD/MAGD Credit.

Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
6/1/2018 to 5/31/2022 Provider ID# 335954

*Terms and conditions viewable during online registration.

*When calling for reservations, specify that you are with Gerety Orthodontic Seminars. Please book reservations prior to September 2 to guarantee availability and the discounted group rate.

Registration includes the 300-page course manual written by Dr. Robert G. Gerety, and is the most complete text on Straight-Wire mechanics available today. Also included are the project materials needed to complete the hands-on exercises. Registrants will need to provide their own instruments and typodonts to successfully participate in the course. A list of materials will be provided upon registration.

Support for the clinical portion of this program is generously provided by Ortho Arch. This program is for scientific and educational purposes only and does not directly promote the products of the company.
